

Halogen Free. Flame Retardant Polyurethane Tube PUN8X6-KKS

Technical data

Hose Ø outside x inside [mm]	8 x 5.7
Min. bend radius [mm]	28
Operating pressure [bar]	11

Description - Polyurethane hose 8 x 5.7mm KKS, hardly flammable

Properties:

These special hoses are particularly suited for use in cable ducts (Building technology) with light to moderate spark flights and moderate UV-radiations. They have survived the hardest of conditions and proven themselves in the extensive range of practical tests.

Ideal for building technology!

Advantages:

- Halogen free, flame retardant, self-extinguishing in event of fire, fire performance tested by "Underwriters Laboratories Inc.®", classification from UL 94 V2 to V0, •Suitable for all standard push in connectors,
- Resistant to hydrolysis and microbes for applications with or in water •Very tight bend radii possible,
- Extremely high wear and abrasion resistance (compatible with cable carriers), •Free of paint-wetting impairment substances (PWIS-free), •Approved for use in the German automotive industry

Material:

Polyether polyurethane

Temperature range:

-30°C bis +100°C

Hose colour:

blue

Roll length:

50 m
