

Universal Fittings

Universal Kit Summary

To use the actual kit you need to start with standard MPDE fittings as follows.

Any 25mm fitting- remove the nut and internals and replace with part number PE-715.020. You can then connect to any type of pipe with an O.D from 15mm up to 22mm.

Any 32mm fitting- remove the nut and internals and replace with part number PE-715.025. You can then connect to any type of pipe with an O.D from 21mm up to 27mm.

Any 40mm fitting- remove the nut and internals and replace with part number PE-715.032. You can then connect to any type of pipe with an O.D from 27mm up to 35mm.

Universal Fittings		
Part Number	Inlet	Outlet
PE-715.020	15-22mm	16,20,25,32,40mm
PE-715.025	21-27mm	20,25,32,40,50mm
PE-715.032	27-35mm	25,32,40,50,63mm
