

Mechanical Fuel Meter

J1581400

CISSON

This mechanical fuel meter has a flow rate of 20-120 ltrs per minute, with a resettable 4-digit totaliser, and a non-resettable 8-digit totaliser, which registers up to 9,999,999.9 Litres. Suitable for use with diesel, aluminium-metering chamber with polybutylene nutating disc.

FEATURES:

- Aluminium-metering chamber with polybutylene nutating disk.
- Flow rate 20 – 120ltrs per minute (5-30gpm)
- 1" inlet / outlet
- Accuracy +/-1%
- Maximum working pressure 3.5bar / 50psi
- 4-digit readout, with 8-digit non-resettable totaliser
