

Fulham' Rubber Hose Nozzle Adaptor, BSP Taper Male, Imperial

Wade

Features & Benefits

- A range of brass 'Fulham' rubber hose nozzle adaptors with BSP parallel male, BSP parallel female and BSP taper male stud thread connections
- Providing a quick and easy male or female stud thread connection with 3/8" inside diameter LPG rubber hose
- Enabling hose connection to mating BSP parallel BS2779, BSP taper or BSP parallel BS21 female threaded ports and BSP parallel male stud threads
- The hose connection is made by pushing the end of the tube over the hose tail stem, securing it into place with a jubilee clip or O clip
- Designed for use on low pressure LPG and natural gas applications, particularly within the caravan and leisure industry
